### Feedback Topics

#### 1. Lack of Guidance on Logic Implementation – [6 posts]

Insufficient directions provided for logical implementation in projects, leaving students to rely on external resources.

"I can't seem to figure out where the parts and products should be added to."

[Reddit post](#)

"I'm working through the PA, mostly learning as I go through the project and supplementing with the course Udemy videos."

[Reddit post](#)

"My instructor told me to check if I'm able to save all the data... but that's vague for me."

[Reddit post](#)

"My instructor told me to check if I'm able to save all the data when you add/modify a product, but that's vague for me."

[Reddit post](#)

"I'm confused about whether or not this is actually all that is needed."

[Reddit post](#)

"nowhere before this section did the course say we need to have the products and parts associated."

[Reddit post](#)

---

#### 2. Unclear Error Messaging – [2 posts]

Lack of error messaging for custom validators, leading to confusion during code submissions.

"I cannot get the default messages to display, the page simply refreshes."

[Reddit post](#)

"I can't figure out what I am doing wrong."

[Reddit post](#)

### 3. Discrepancies in Evaluation (*Emerging*) – [1 posts]

Confusion between local environment setup and evaluator's feedback leading to misunderstandings in assessment.

"the evaluator is claiming it won't build and is experiencing CommandLineRunner errors."

[Reddit post](#)

---

### 4. Code Formatting Issues (*Emerging*) – [1 posts]

Inconsistent and poorly formatted pre-existing code in the course that does not reflect proper coding standards.

"Who in their right mind would format code like this, knowing it will be viewed by students who are trying to learn the proper way to write code?"

[Reddit post](#)

---

### 5. Technical Issues Unaddressed in Course Materials (*Emerging*) – [1 posts]

Instructors did not provide guidance for technical problems students faced, leaving them unsupported during the course.

"It makes no sense. If you are struggling, just reach out to an instructor."

[Reddit post](#)

---

### 6. Difficulty with Project Creativity and Representation (*Emerging*) – [1 posts]

Challenges in generating ideas and confidence for creative project representations, impacting overall project completion.

"What did you use for the charts or 'Representations of solutions'? This writer's block is killing me."
