Pain Points: 5

Feedback Topics

1. Difficulty with Course Material and Assessment – [2 posts]

Students are struggling with the difficulty of the course material and the assessments, leading to stress and anxiety.

"This was the most stressful course I've had yet. I did not think I was gonna pass because it was pretty difficult."

[Reddit post](#)

"I found the OA to be harder. The questions in the PA were more focused on the beginning of the section material, while the OA was more focused on the deeper/more complex details."

[Reddit post](#)

2. Foundational Skills and Time Management Issues – [2 posts]

Students lack foundational math skills and struggle with time management, impacting their performance in the course.

"I cheated/skipped through most of the math fundamentals in middle school/high school and was left with a poor understanding of any math concepts."

[Reddit post](#)

"every-time I got to that section I start running out of time."

[Reddit post](#)

3. Challenges in Passing the OA – [1 posts]

Students are facing difficulties in passing the OA despite their efforts, indicating a need for better preparation strategies.

"I've watched the cohorts, I've done the study plans, yet I've failed twice."
