"I've read lots of posts here that say that every screenshot needs to be included, so I know just excluding it is not an option."

[Reddit post](#)

"I know I did it correctly but they're making me redo it because I didn't do it the way they wanted me to?"

[Reddit post](#)

"I hate the vagueness in this task, they don't even give us a general direction with it."

[Reddit post](#)

"I think the instructions are a little outdated because the screenshots from the guide and what is actually on GitLab are not the same."

#### 2. Lack of Technical Support – [5 posts]

Students are unable to progress due to insufficient technical support and guidance when encountering issues.

"my CI has no open appointments for almost another 2 weeks."

[Reddit post](#)

"I've made multiple appointments with CI's and nobody could help me."

[Reddit post](#)

"I keep getting the 'could not be found or you don't have permission to view it' error."

[Reddit post](#)

"I've been having trouble trying to clone this repository and I keep getting this message."

[Reddit post](#)

"The course materials are, as usual from WGU, completely useless."
