C960: Discrete Mathematics II

College: School of Technology

Topics: 5

Pain Points: 11

Feedback Topics

1. Understanding and Comprehension – [3 posts]

Students struggle with comprehending the questioning styles used in assessments.

"I have an extremely hard time comprehending what they're asking in the word problems."

[Reddit post](#)

"Do your math problems having stuff like ' $\Sigma \Phi \neg \mid \notin \in \subseteq \cup \emptyset$ ' scare the stuffing out of you and make your brain do flips asking yourself 'what have I gotten myself into?!?!?'"

[Reddit post](#)

"the text never really makes it clear how to do those problems"

[Reddit post](#)

2. Assessment Difficulty – [3 posts]

Students find certain assessments unexpectedly difficult and stressful.

"This class was such a pain and by far the most difficult OA I've taken so far at WGU."

[Reddit post](#)

"Induction on the exam is a bit more difficult than what the practice problems offer."

[Reddit post](#)

"this test was way more difficult than I'd expected."

[Reddit post](#)

3. Course Material Effectiveness – [3 posts]

Students perceive that course materials like textbooks are unhelpful compared to other resources.

Generated July 26, 2025 | Report v1.0 | AI-generated — may contain inaccuracies

"The Zybooks are terrible. Open them once every 10 days to keep from getting kicked out of the class, but other than that, they're worthless."

[Reddit post](#)

"I was so overwhelmed I could barely breathe looking at the material."

[Reddit post](#)

"I think the books are a waste of time and the worksheets are more impactful."

[Reddit post](#)

4. Curriculum Alignment (*Emerging*) – [1 posts]

Students feel unprepared for assessments due to a lack of alignment between course content and exam topics.

"the questions didn't even have topics I covered with the instructors."

[Reddit post](#)

5. Time Management Issues (*Emerging*) – [1 posts]

Students encounter challenges with managing their time effectively during assessments.

"Running out of time made me rush Probability and Modeling Computation."
