D284: Software Engineering

College: School of Technology

Topics: 5

Pain Points: 5

Feedback Topics

1. Confusion over Assignment Requirements (*Emerging*) – [1 posts]

Students are unclear about whether to create their own problems or work with provided ones for assignments.

"Are we suppose to make up our own problem to propose a solution to? Or did they give us a problem for us to make up a solution to"

[Reddit post](#)

2. Frustration with Lack of Guidance on Assignments (*Emerging*) – [1 posts]

Students feel frustrated by the course's emphasis on creating fictional solutions without clear guidance.

"this course is you making shit up."

[Reddit post](#)

3. Challenges with Grammatical Standards (*Emerging*) – [1 posts]

Students struggle to meet strict grammatical correctness requirements, impacting their ability to pass assignments.

"you have a maximum of 40 grammatical correctness errors to pass... and I had 69."

[Reddit post](#)

4. Uncertainty in Course Sequencing (*Emerging*) – [1 posts]

Students feel unprepared for D480 due to conflicting advice on the sequencing of courses.

"I see a lot of post talking about how Software Engineering helped a lot with the tasks in D480 but my mentor insists its the other way around."

[Reddit post](#)

5. Confusion about Task Requirements (*Emerging*) – [1 posts]

Students are confused about the requirements for tasks in D480, especially regarding functional and non-functional specifications.

"I get so confused with the out of scope and functional vs non-functional requirements."
