C949: Data Structures and Algorithms I

College: School of Technology

Topics: 4

Pain Points: 9

Feedback Topics

1. Test Preparation and Anxiety – [3 posts]

Students are struggling with test anxiety and feeling unprepared due to insufficient coverage of materials.

"trying to retake this one is a nightmare."

[Reddit post](#)

"I got them confused during the test since I was nervous and second guessing myself."

[Reddit post](#)

"I felt very lost as though a lot of the materials weren't covered."

[Reddit post](#)

2. Discrepancy in Assessment Materials – [3 posts]

Students find the OA questions significantly different from the study materials, leading to confusion and frustration.

"80% of the questions were not even remotely close to it."

[Reddit post](#)

"I got virtually the exact same result as I did last week and I am confused why this is."

[Reddit post](#)

"how much of it is pseudocode/python specific questions?"

[Reddit post](#)

3. Resource Organization – [1 posts]

Students feel that course resources are disorganized and overwhelming, impacting their study efficiency.

"the resources are all over the place."

[Reddit post](#)

4. Understanding of Course Content – [2 posts]

Students are uncertain about the scope and focus areas of the course content, particularly regarding time complexities and programming languages.

"will the OA have questions about average case and best case?"
