D597: Data Management

College: School of Technology
Topics: 5
Pain Points: 7

Feedback Topics

1. Uncertainty in Accessing Resources – [3 posts]

Students express confusion about how to locate essential resources or tools needed for tasks.

> "I am so lost on task 1. Where do I go to choose a scenario? How do I access the virtual lab?"
> [Reddit post](#)
> "I'm having trouble locating the csv file."
> [Reddit post](#)
> "I'm not sure how to find the map script."
> [Reddit post](#)

---

2. Issues with Query Performance Metrics *(Emerging)* – [1 posts]

Students face challenges in demonstrating progress or outcomes due to technical limitations affecting query metrics.

> "I cannot show improvement from zero."
> [Reddit post](#)

---

3. Lack of Data for Practical Exercises *(Emerging)* – [1 posts]

Students encounter difficulties executing theoretical queries due to insufficient data availability in course materials.

> "I'm running into the issue that I could make queries for these in theory but they wouldn't work in practice as there is no data for those tables."
> [Reddit post](#)

4. Confusion Around Tool Requirements *(Emerging)* – [1 posts]

Students are uncertain about the impact of using specific tools, such as virtual environments, on their course performance.

> "I'm worried this will be an issue? Did anyone pass without using the virtual environment?"
> Reddit post

---

5. User Interface Frustrations *(Emerging)* – [1 posts]

Students experience frustration with unfamiliar or confusing user interfaces compared to tools they are used to.

> "the UI configuration is so confusing compared to SSMS."
> Reddit post
