Pain Points: 2

Feedback Topics

1. Inconsistent Feedback and Code Errors *(Emerging)* – [1 posts]

Students are encountering discrepancies between feedback received and the actual behavior of their code, leading to confusion and frustration.

> "the calculation for debt to income ratio caused errors"
> [Reddit post](#)

---

2. Confusion with Development Tools *(Emerging)* – [1 posts]

Students are facing challenges in navigating and using local IDEs and version control systems like Gitlab, which hampers their workflow and submission process.

> "Struggling to understand Gitlab."
