Pain Points: 8

Feedback Topics

1. Exam Feedback and Confusion – [4 posts]

Students are confused about exam results and feedback, leading to frustration and anxiety.

> "I'm confused as to why I failed the exam."
> [Reddit post](#)
> "Even after running the code exactly like the question states it still tell me in wrong?"
> [Reddit post](#)
> "I frequently get marked 'wrong' on answers that were correct."
> [Reddit post](#)
> "Correct solutions marked wrong with zero explanation as to how it doesn't work."
> [Reddit post](#)

---

2. Practice Test and Language Switching – [2 posts]

Students struggle with practice test questions and switching between programming languages.

> "the instructions and code are contradicting each other."
> [Reddit post](#)
> "I already struggle getting my brain to switch which syntax I should be coding in and... I found myself accidentally writing Python."
> [Reddit post](#)

---

3. Concerns About Test Integrity – [2 posts]

Students are anxious about the use of external help and the consequences of failing.

> "I wonder if this is going to trigger something or have a bad consequence?"
> Reddit post
> "I'm wondering if it would be considered cheating?"
> Reddit post
